

# CAMBRIDGE SCHOOL

## Under the aegis of The Society for the Advancement of Education

Cambridge School was founded in 1931 with the conviction that education should develop curiosity about the world, instill the joy of learning in children & promote strength of character. Nothing in the intervening years gives us reason to modify these objectives.

We are looking for staff for the Academic Session 2023-24. Successful candidates will demonstrate conceptual understanding, an ability to enrich theory with real life examples, and fluency in communication at all times.

---
